+		+		+		+
3	+	6	+		=	18
+		+		+		+
8	+	9	+	10	=	
=		=		=		=
	+	19	+		=	57

Magic Squares

Two weeks ago, you were given the magic number. This week, you will be given one square **with** the magic number, and one square **without** the magic number. Can you figure out what it is? Remember that the sum of every **row**, **column** and **diagonal** must be the same. Good luck!

Magic Number - 15

	7	
9		1
	3	

	1	
3		
4		2
