

Which One Doesn't Belong

Many of you have already played **Which One Doesn't Belong** (WODB) in class. We have selected questions that use math concepts that you are familiar with. You will be thinking about the numerous reasons why **each** section does not belong to **the set** of the other 3 items. See how many you can find – there are multiple reasons for each! Record your answers ensuring you have a couple for each as a minimum.

For example: Section C does not belong because it is a triangle. (The rest in the set are circular in shape)

This could also be a fun game to play with siblings, challenge your parents with.
